Summary

Computer Science student with strong interest in backend engineering. Skilled in Java, Python, MySQL, and C/C++ and experienced in hands-on technical projects. Tutor helping students worldwide build strong foundations in programming, software development and security.

Technical Skills

Programming Languages: Java, Python, C/C++

Databases: MySQL

Concepts: OOPs, DSA, Backend Systems

Tools & Platforms: Git, Linux, Android Development

Projects

1. AI Research Lab Simulator

Python | Streamlit | Google Gemini API | Multi-Agent Systems

- Developed a multi-agent GenAI platform that autonomously generates, reviews, and composes full research papers using **Google Gemini 2.5 Pro**.
- Designed a workflow of **7 AI agents** simulating roles like researcher, reviewer, editor, and fact verifier to automate the academic writing process.
- Built an interactive **Streamlit interface with chat assistant and .docx export**, enabling real-time research generation and collaboration.

Live Demo: pranav-sharma-ai-research-lab-simulator.streamlit.app

2. Movie CRUD REST API

Golang | REST API | JSON | Postman

- Developed a RESTful backend service in **Go** implementing full CRUD operations for movie data.
- Designed HTTP endpoints supporting **GET, POST, PUT, and DELETE** requests with JSON request/response handling.
- Tested and validated API behavior using **Postman**, ensuring proper routing, status codes, and data flow.

3. Custom Web Server

Golang | HTTP | Backend Systems | Client-Server Architecture

- Built a lightweight web server using Go's **net/http standard library** to understand low-level backend fundamentals.
- Implemented routing, handler functions, static HTML serving, and form submission processing.
- Implemented low-level HTTP routing and request handling using Go's **net/http** package

Work Experience

Tutor

02-2025 - Present

Preply

- Teach Python, Java, MySQL, and cybersecurity fundamentals to international students
- Conduct one-on-one mentoring sessions with practical coding exercises
- Design structured learning paths for beginner and intermediate learners

Java Intern

06-2025 - 07-2025

Learn and Build, Jaipur, India

- Selected for summer internship focused on Core Java programming
- Built small Java projects and practiced debugging and problem solving

Education

Bachelor of Technology (B.Tech) – Computer Science

08-2024 - Present

Global Institute of Technology, Jaipur

Affiliated to Rajasthan Technical University, Kota

AISSCE – Mathematics & Computer Science

04-2023 - 04-2024

Kendriya Vidyalaya

Score: 78%

Achievements

- Selected for Java Internship – Learn & Build Summer Program
- Programming Tutor on Preply mentoring international students
- Successfully completed the HENNGE Engineering Coding Challenge 2026 (Python)
